## SLAVERY TODAY... YES, REALLY, TODAY!

Slavery has been around since Biblical times—perhaps even before. Slaves:

- Built the pyramids
- Powered navies
- Cultivated fields

## But SLAVERY still exists TODAY, even though it is ILLEGAL in ALL countries.

RIGHT NOW there are slaves who are:

- Mining components used in your computer
- Picking beans for your coffee
- Sewing your clothes

"While there is slavery in commodities and raw materials, the amount of each raw material or commodity that is actually touched by slavery is so small that **the cost of removing that slavery shouldn't actually touch the bottom line**." –Kevin Bales, Free The Slaves

# \$

# **BUSINESS DRIVERS TO ADDRESS MODERN SLAVERY**

#### **RISKS**

- Reputational damage
- Loss of market share
- Legal sanctions

#### **BENEFITS**

- Increased consumer confidence
- Improved employee morale
- Exceed legal requirements

## HOW MANY SLAVES WORK FOR YOU?

Take this survey to find out where slaves are in the products you use.

# ACTIONS YOU CAN TAKE TO BREAK THE CHAIN

- ✓ Watch this TED talk: <u>Photos that bear witness to modern slavery</u>
- Tell cocoa traders to get slavery out of chocolate
- Send a note to major brands telling them you want slave-free products
- ✓ When you shop, look for the Fair Trade and Rainforest Alliance logos because they work on taking slavery out of the supply chain.

"It may sound strange but there is **profit in ending slavery**. When you **set millions of people free to work for themselves**, to buy food and clothing and shelter and education and medicine and even toys for their children, **you unchain productivity**. The result is a **freedom dividend of significant proportions**," says Kevin Bales
